

Smart Connect Multi-Loop Demo Case (SCM-DEMO)

Description

The dual purpose SCM-Demo is designed to be used as a fully working training case and a postable demonstration case.

The SCM-DEMO is extremely tough and durable and comes ready to use, perfect for company personnel to be fully trained by on by one of our certified training instructors.

With the SCM-DEMO you can also take the sophisticated, modular Smart Connect system to your customers easily and efficiently.

The great thing about the case is the main panel is laid out exactly as you would expect to see it inside the SMART10/64 Smart Connect Multiloop 10 Expansion Port with Zonal LED.
