

Premier M^{Plus} REPEATER

The Premier M Plus Repeater (PMP-REP) is available in 2 versions, active or passive.

The Active panel can control the system (silence reset etc). Only 1 active repeater is allowed on a system.

The Passive repeater is display only (ie it can not silence or reset the system). You can connect up to 8 passive repeaters onto a system.

The repeater is connected to the control panel via 4 cables. Two for power, 2 for data.

Connections

Panel	Repeater
A	A
B	B
AUX Power +28V	SUPPLY +
AUX Power 0V	SUPPLY -
