Resettable CP4 Call Point & Weatherproof Call Point

(ZT-CP4, ZT-CP4/WP)

ZT-CP4

ZT-CP4/WP

CE

Description

The ZT-CP4 is a resettable manual call point with unique and innovative features. It has been designed to obtain maximum visibility, high reliability in operation and pleasant aesthetical appearance.

When the resettable element is pressed the spring mechanism mimics the feel of a break glass and the resettable element goes back. A completely new action system gives high performance and guarantees the alarm detection in every condition.

A reflective polyester flag appears in the bottom of the operating face, providing the highest levels of visibility for the user. At the heart of the call point a spring free mechanism is used to operate the flag and the switch via a patented design. This allows long life and trouble free operation.

Key Benefits

- EN54-11 approved
- Very high visibility of the alarm condition
- 🔨 New efficient and reliable mechanism
- High impact resistant ABS glass fiber material
- Fully patented
- Quick and Easy Installation

Technical Specification		
Model	ZT-CP4	ZT-CP4/WP
Maximum Voltage	30V	
Minimum Voltage*	4.5V if LED with R1 is chosen 6.0V if LED withh R2 is chosen	5.0V if LED with R1 is chosen 6.0V if LED with R2 is chosen
Current Rating (non-operated)	0mA	
Current Rating (operated)	18 mA @ 12V - R1	19 mA @ 12V - R1
	13 mA @ 12V - R2	13 mA @ 12V - R2
	45 mA @ 24V - R1	45 mA @ 24V - R1
	31 mA @ 24V - R2	31 mA @ 24V - R2
Cable Termination	0.5 - 2.5 mm ²	0.5 - 2.5 mm ²
Operating Temperature	-30 / +70 °C	-30 / +70 °C

Resettable CP4 Call Point & Weatherproof Call Point

(ZT-CP4, ZT-CP4/WP)

Model	ZT-CP4	ZT-CP4/WP
Humidity	0 - 95%	
IP Rating	IP42	IP67
Material	ABS/Polycarbonate/PA6 + Glass Fiber	ABS/Polycarbonate/PA6 + Glass Fiber
*	Below minimum voltage LED current is lower than 7 mA	Below minimum voltage LED current is lower than 5 mA
